Fee Fishing Lakes in Ohio

G. L. Mountz and P. A. Hackney

The following list of fee fishing enterprises was compiled as a part of Dingle-Johnson Project F-47-R, Ohio. This project was sponsored by the U. S. Fish and Wildlife Service under the Federal Aid in Sport Fish Restoration Act, the Ohio Agricultural Research and Development Center, and the Ohio Department of Natural Resources, Division of Wildlife.

The list contains enterprises which charge daily fees, annual fees or include fishing in fees for use of the grounds. Use fees are variable, subject to change without notice, and therefore have not been included. Ranges of \$0.50 to \$3.50 per day or \$20.00 to \$100.00 for annual membership are common.

Many businesses stock adult fish of catchable size, the type and number depending upon cost and availability. At least 15 different species have been used in these stocking programs, ranging from carp to trout and northern pike. Persons interested in fishing for a particular species should contact the locations of their choice to determine their availability.
